

### **Location Benefits:**

- Centrally located in the heart of the United States
- Within a one-day drive from virtually everywhere
- Far from known nuclear targets
- Only 70 miles from Omaha: probable alternate capitol of the U.S. should Washington D.C. become compromised
- Far from large water bodies posing tsunami submersion threats
- Far from major earthquake fault lines
- Far from major cities and potential anarchists
- In the 'safe land zones' envisioned on many futurist maps
- Surrounded by farming, fishing, hunting and fresh water sources
- Rural, remote location away from cities and military targets

### **Shelter Features:**

- Hardened concrete and steel nuclear shelter
- Designed to withstand a 50 megaton blast within 10 miles
- 137,000 square feet - on four levels
