Air Filtration

Each

Air Filtration

This all-in-one air scrubber with a built in HEPA filter will scrub radioactive and biological particles down to 99.99% efficiency (3 microns). The drum round filter provides 25% more surface area than flat filters and includes a prefilter that slides into the air intake frame. Note: this filtration system does not include a "Chemical" scrubbing component, provided by a carbon filter, as we believe the chance of a chemical agent attack at the Vivos xPoint site to be very remote. However, an optional carbon filter can be added for chemical gas protection. You will also need the bulkhead vent nine
